

Search Engine Optimisation & Social Media Marketing

Who are O'Brien Media?

Based in Swindon, Wiltshire, we are a growing local website design agency - we are proud to be both a Disability Confident Leader and a Living Wage employer.

Why choose us for us your SEO and Social Media Marketing needs?

Being a small business ourselves, we understand the importance of making sure that your business is seen on the web - and needing to stay at the top of the search rankings.

Social Media is different for every type of business with their own unique identity - we understand that different users utilise each platform differently and use this to produce great content that is suitable for you and your business.

Our values are built on connecting with customers and understanding the passion behind the businesses - we see our customers as partners and care about producing quality content and results that help your business growth journey continue.

What can an agency do for my business?

Agencies specialise in improving search engine rankings for websites, businesses, and individuals. Search engines such as Google, Bing, and Yahoo use hundreds of ranking factors to determine what results to present every time someone types in a search term.

With social media, agencies specialise in producing unique content that is utilised in the correct way for each social media platform to produce the best possible engagement and interaction.

SEO & Local Search

It's important to be at the top of the search rankings.

A website must be optimized for search engines (SEO) in order to rank on Google. Showing up high in Google's organic search demonstrates your site's relevance, trustworthiness, and authority. To stay at the top, your website needs to implement the latest SEO practices.

Our SEO techniques are proven to increase brand awareness and business through higher rankings and more traffic. SEO has the greatest long-term ROI among all marketing channels.

Local search is also key as it ensures that people that are local to you are able to easily discover your business.

Over 6 billion searches, daily

The number of daily searches is estimated at over 6 billion. As well as constant updates, these search algorithms remain top-secret. Therefore, SEO is a highly specialized skill and is an investment for businesses that want to receive more highly targeted traffic to their sites.

Answers to some of your questions

How long will it take SEO results to improve?

It can be anything from one month to six months, depending on a number of different factors.

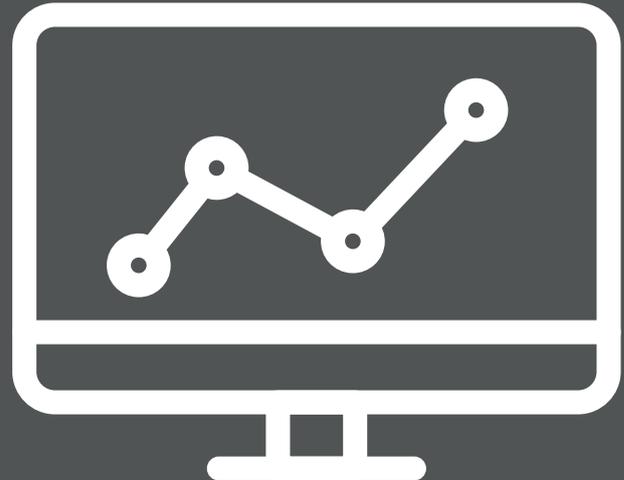

For example, if you want to rank for your own brand and you have an established website, it can take just a few weeks if there is limited competition. It may take 6 months if you have an unoptimized domain, no backlinks, and you are competing for a high volume, high difficulty keyword or phrase.

How do you stay in the know about Google's updates?

A Google algorithm update can have a significant impact on businesses from all industries every now and then. We are kept informed of these updates through a number of tried and trusted channels. Our award-winning agency team can then react accordingly and implement any necessary measures to keep you in the top spot.
